

Silver Cross Lab Renovation – Invitation to bid

Invitation to bid:

Silver Cross Hospital is pleased to invite qualified trade contractors to submit bids for the renovation of the clinical laboratory located at 1890 Silver Cross Blvd, New Lenox, IL, 60451. The project is a 10,174 SF renovation to be completed in four phases to maintain uninterrupted laboratory operations. Construction is anticipated to begin in summer 2026. All bidders must be signatory to applicable labor union agreements governing the work.

Project Background:

Silver Cross Hospital's clinical laboratory operations have experienced substantial growth with test volumes increasing from 850,000 tests in FY14 to an estimated 1.8 million in FY26. To support demand and evolving diagnostic complexity, Silver Cross is undertaking a comprehensive renovation of its core laboratory departments, including Microbiology, Blood Bank, Chemistry, Urinalysis, Hematology, Coagulation, Molecular Diagnostics, and Special Testing. This investment will improve workflow efficiency, expand in-house testing capabilities, reduce turnaround times, and enhance critical service.
